## Objective

---

Recent Information System graduate eager to launch a career as a software developer in a dynamic, team-oriented environment that fosters innovation and quality. Excited to apply my skills in building websites and mobile apps to create meaningful solutions.

## Skills

---

- **Soft Skills:** Great at working with others, solving problems, and paying close attention to details. Organized, creative, and committed to continuous self-improvement. Quick learner with a focus on understanding other needs.
- **Technical Abilities:** Proficient in building websites and mobile apps using HTML, CSS, JavaScript, PHP, TypeScript, Kotlin, and Dart. Designs intuitive interfaces with React, Next.js, Jetpack Compose, Tailwind, Bootstrap, and MaterializeCSS. Manages data with MySQL, SQLite, Firebase, and Room. Develops other efficient applications using Laravel, Winter CMS, and Flutter. Uses Git, Jira, and Bitbucket for project management, and other incorporates libraries like Retrofit, Axios, Formik, Yup, and Hilt for robust functionality.
- **Areas of Interest:** Creating complete web applications, designing engaging website interfaces, and developing Android apps.

## Experience

---

### FullStack Developer Intern, PT Nusantara Infrastructure Tbk, Jakarta

Feb 2024 – Jun 2024

- Delivered new features quickly, averaging 2 feature releases per month.
- Fixed critical user issues to improve app reliability, cutting major bug reports by 15%.
- Built interactive charts and maps to display over 700,000+ data points, making complex information easier to understand and explore.

### Vice Chairman, Unit Kegiatan Mahasiswa Programming, Palembang

May 2024 – May 2025

- Helped organize a successful 2024 Coaching Program for 40+ participants.
- Led and worked on group projects independently.
- Competed in the Programming Division at Gemastik 2024.

### Lecturer Assistant, Universitas Multi Data Palembang

Feb 2023 – Jun 2023

- Supported 25+ students in learning Algorithms and Data Structures.
- Led a workshop on using Microsoft Word templates for academic writing, attended by 40+ participants.
- Graded quizzes for 25+ students.

## Education

---

### Bachelor of Information System, Universitas Multi Data Palembang

Sep 2021 – Apr 2025

- GPA: 3.93/4.00
- **Achievements:**
  - Earned IDCamp 2024 Scholarship for Android Developer training (Expert Level).
  - Earned IDCamp 2024 Scholarship for Android Developer training (Intermediate Level).
  - Earned IDCamp 2023 Scholarship for Front-End Web Developer training (Expert Level).
  - Earned IDCamp 2023 Scholarship for Front-End Web Developer training (Intermediate Level).
  - Won Second Place in Web Development at Sriwijaya Informatics Exhibition 2023.
  - Worked with IT teams on a one-month Alumni Information Support Project for the Universities Virtual Career Expo (UVCE).

## Projects

---

- **AnimeApp (Kotlin, Android):** Built an Android app for anime fans, featuring recommendations, filtering, detailed info, and episode streaming. Used Room for local data storage to reduce API calls, with Retrofit, Coroutines, MVVM, Compose, Exoplayer, Glide, Hilt, and Chucker.
- **NISA (Winter CMS, Next.js, Flutter):** Developed an internal web app for employee self-assessment, managing highway pavement and asset inspection reports. Integrated MySQL, Docker, and Google Cloud Platform.
- **Discord Clone (Next.js, TypeScript):** Created a chat platform with text, voice, and video channels, using Clerk for authentication and WebSocket with Socket.io for real-time communication. Styled with Tailwind and enhanced with Prisma, Emoji-picker, Radix-UI, Livekit, and Uploadthing.
- **NICA (Winter CMS):** Built an internal web app to manage highway data, simplifying decision-making with MySQL, Docker, and Google Cloud Platform.
- **UVCE Mapps Admin (Vite, React, TypeScript):** Developed an admin system to manage user and certificate data for the Universities Virtual Career Expo, using Tailwind, Formik, and Rechart.
- **PortalLoker (Next.js, TypeScript):** Created a job portal website with job vacancies and company info, using Tailwind, Yup, Framer-motion, Hook-form, and Zustand.
- **CMS Perpustakaan (Laravel):** Designed a library management system with CRUD operations for book content, using MySQL and Bootstrap 5.
- **Book App (Next.js, TypeScript):** Built a book-themed website with CRUD functionality using an open REST API, styled with Tailwind and enhanced with Axios.
- **Meal App (Vanilla JS):** Developed a meal-themed website using a public API, with AJAX for data retrieval, MaterializeCSS for styling, and ESLint for code quality.
- **Shop App (Laravel, Next.js, TypeScript):** Built a shop-themed website with REST API backend for authentication, transactions, and promos, using Signals, Passport, and Tailwind.
- **Mari Bermusik Mobile (Flutter, Dart):** Developed a mobile app for learning musical instruments, featuring CRUD operations and Firebase authentication and Firestore.
