Palembang, Sumatera Selatan

An information system student who is very enthusiastic and always wants to hone personal skills and learn new things by participating in organizational activities, bootcamps and competitions. I am a disciplined person, attentive to details, able to work individually or collaboratively in groups. I am eager to learn new technologies and tools, and to share my knowledge and skills with others. I am looking for opportunities to implement my skills as a software developer in a dynamic and collaborative environment that values innovation and quality.

Work Experiences

PT Nusantara Infrastructure Tbk - Jakarta Selatan, Jakarta   Feb 2024 - Jun 2024
FullStack Developer Intern

- Accelerated feature delivery and enhancements, consistently achieving an average of 2 feature releases per month.
- Ensured application stability by rapidly diagnosing and resolving critical user-reported issues and bugs, including data filtering, synchronization, performance, and reducing critical bug reports by 15%.
- Enhanced data comprehension and user engagement by developing interactive charts visualizing over 700,000+ data and strip maps handling 40,000+ data, enabling intuitive exploration of complex data trends and patterns.
